Summary

Junior Web Developer adept in all stages of advanced web development. Knowledgeable in the user interface, testing, and debugging processes. Equipped with a diverse and promising skill-set. Proficient in an assortment of technologies, including JavaScript, REACT, MERN, and MySQL. Able to effectively self-manage during independent projects and collaborate in a team setting.

Technical Skills

Programming Languages: JavaScript, REACT
Tools: HTML, CSS, jQuery, Git, Github, Object-Oriented Programming, Test Driven Development
Back-End Development: Node.js, Express.js, MySQL, Jest

Projects

Sikester | Link to GitHub *https://github.com/OathOfIsaac/sikester* , **Heroku Link** *https://desolate-basin-81470.herokuapp.com/*
- Full stack application group project. My group created a nostalgic social media site for users to post content and comment in real time.
- I led the group and identified everyone's strengths and weaknesses to delegate tasks that should be worked on. My focus was mainly on the server side JavaScript and client side JavaScript, as well as learning and implementing Socket.io to have a real time comment system.
- Handlebars, Bulma, JavaScript, Socket.io, MySql, JAWSDB, Heroku, Express, Sessions, MVC paradigm, bcrypt, dotenv for password encryption.

Search, Watch, Chill | Link to GitHub *https://archiedonaho.github.io/Search-Watch-Chill/*
- Front-end application group project. We created a random movie generator that will suggest films based on genre or search.
- My main focus on this project was setting up our Modals that will appear when a user hits "Search" as well as implementing front-end JavaScript for functionality.
- HTML, CSS, JavaScript, Bulma, omdbapi, themoviedb api.

Experience

Sr. Relationship Banker   2021 – Present

Amegy Bank of Texas   **San Antonio, TX**

Conduct assessments with clients to determine their financial needs and make appropriate recommendations. Execute inside and outside sales calls to prospects and established customers. Support Retail objectives and initiatives in capitalizing on business opportunities that directly or indirectly influence the production of revenue and risk of loss.

Key Accomplishments:

- Established a relationship with a Commercial Real Estate Broker with a high-profile corporation to generate additional sales opportunities for my branch and business partners.
- Utilized sales discovery process to uncover a new client's need for credit card processing resulting in an increase of fee income to branch as well as saving the client 3% monthly on processing fees.

Branch Manager   2013 – 2020
Nevada State Bank   **Fallon, NV**

Directed branch activities, maintains prescribed security measures, and compliance with policies and procedures and applicable laws and regulations. Responsible for the expansion of business relationships and the development of new business; calls on both new and existing clients. Managed and developed exempt and non-exempt team members.

Key Accomplishments:

- Cultivated a relationship over the course of four years with a business owner out of California resulting in the acquisition of his entire business and banking portfolio which generated $15,000 a month of fee income for Nevada State Bank.
- Fostered open communication and partnerships in my branch which led to an increase in productivity year over year. 30% production to goal in my first year, and ended 105% production to goal in my final year.

Education

Boot Camp Certificate: University of Texas, Coding Bootcamp, San Antonio, TX

- A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, JavaScript, jQuery, Bootstrap, Express.js, React.js, Node.js, Database Theory, MongoDB, MySQL, Command Line, Git, and more
